NOWE waterworks

Industry Waterworks
Application Drinking water
Country Poland

Description
Design, manufacturing and supply of water treatment plant for waterworks in Krośniewice, a town in the middle of Poland.

The filtration system consists of four automatic pressure filters with a diameter of 1800 mm, designed as parallel filters, with complete pipe system in stainless steel.

Technical data

Flow..... 4 x 40 m³/h
Iron < 0.2 mg/l
Manganese..... < 0.05 mg/l

Units in plant

- Pressure filters 4 x TFB 40
- Aerators 2 x A1200
- Aeration equipment
- Equipment for backwash
- Distribution system
- Central PLC control cabinet with a touch screen

Raw water composition

Iron 8.2 mg/l
Manganese..... 0.56 mg/l
